Iatek CMS Recognized for Digital Education Achievement Award 10/04/2005 Information Technology

Fall River based Iatek, a vendor of Web content management software, was awarded first place for its deployment of a teacher-focused portal for the Georgia Association For Educators (GAE.org). The Best of the Web and is sponsored by the Center for Digital Education, a national research and advisory institute on education technology.

Newport, RI, October 4, 2005 - Judges from the 2005 Best of the Web contest have named the GAE.org Web site among the best in the nation for education-centric portals. The Iatek powered GAE.org site ranked first place in a national review of education related web sites. The Best of the Web contest is sponsored by the Center for Digital Education, a national research and advisory institute on education technology. Iatek worked diligently with the Georgia Association of Educators to transform their initiatives into a Web solution that simplifies content management, and enables the GAE to better communicate and collaborate with education professionals.

About Iatek

Iatek is a provider of intuitive, versatile Web-based content management applications that empower businesses, content providers and Web professionals to easily maintain their Website or intranet content while saving time, money and valuable company resources. Iatek has deployed solutions to more than 1800 customers including Duke University, U.S. Armed Services, McDonalds Corporation, Countrywide Homeloans, Motorola, Johns Hopkins University and Northrup-Grumman.

About the Georgia Association of Educators

The Georgia Association of Educators (or GAE, for short) is a professional organization for public education professionals. At heart, the GAE is a grassroots organization. Our strength comes from the dedication and involvement of our members. At last count, there are more than 40,000 GAE members across the state.

About the Center for Digital Education

The Center for Digital Education is a national research and advisory institute on K-12 and Higher Education technology. The Center is a business division of e.Republic, which publishes Converge Online, Government Technology and Public CIO.
